Dear John

3-7 Parliament Row, Hanley

We would like to thank you for an excellent performance in the fabrication and erection of the steel frame at the above site in a difficult town centre location.

Our Client team visited site last week and were extremely pleased with the steel frame, particularly after the earlier delays to the drawing process when they changed the building format "in mid stream".

We acknowledge receipt of your letter of 12 June 2001 giving breakdowns of your final account. Terry Challenor who is currently on holiday will respond to you on his return but I believe he will require further breakdowns for the Westock Beams.

Thank you again for your performance.

Yours sincerely

Roger Dudley
Contracts Manager
